Special request to continue to trial and that is my final decision

Dear Judge Mr. Burris and Mr. Lacy

For all these reasons I want to continue to trial and that is my final decision

1. I am writing this letter because due the interruption connection with Skype we couldn't corroborated that all my siblings were agreed with the settlement . I remember that sometime before Skype was broken one of my brothers "Felipe still undecided and I was undecided myself as well.

I told this to the Attorneys ,the Judge including the translator girl but they told me that they understood that he was agreed.

I was afraid and I had my doubts about that everybody was agreed on that day.

The next day after, I found out that my brother Felipe never agreed to make the settlement. Still undecided at the end of the day I believe that final decision settlement was no execute until all siblings and myself signed documents. We haven't have signed any settlement documents yet.

After I found out my brother Felipe was no agree I addressed the court to corroborate what was writing in those documents after last settlement conference.. As a result of that I wrote a letter to Honorable judge Beeler requesting those document after the settlement conference.

One thing is that because the guilt that I have with my brothers about called the police on that fateful day and did not want to upset my siblings any more.

I always wanted to go to court to demand justice for Hernan and raise his voice to be heard in the courts.

I do also wanted to have the opportunity to discussed the settlement among only my siblings without the presence of the Judge and attorneys.

I believe unfortunately by the lack of communication by Skype Everything was left incomplete and all who were in your office including Honorable Judge Beeler , the attorneys assumed that all my brothers were in agreed with the settlement.

2.Second Spanish translation was unclear, because the translator was from Mexico and Mexican Spanish is quite different from Colombian Spanish

For all these reasons I would like to go to trial , because I didn't have the chance to make my final decision on the last conference Settlement day and I also want to go to trial in the memory of my brother Hernan

Sincerely
